Fastlane Optical Turnstiles

Unrivaled breadth of choice with everything you need

INTELLIGENCE

Advanced infrared and computing technologies accurately pinpoint the size, shape, and speed of individual entities — detecting tailgaters less than 1/4” apart on most models (the closest in the industry). All of our systems integrate with the rest of your security infrastructure to ensure cohesive, seamless control.

RELIABILITY

Built for the long haul, Fastlane turnstiles deliver consistent performance, fewer maintenance headaches, and a lower total cost of ownership.

AESTHETICS

Unmatched craftsmanship and stunning good looks elevate your environment while our technology protects it. Fastlane’s sleek, cutting-edge pedestals and barriers can be customized to match your lobby, budget, and design ideals.

SPEED

Get the fastest throughput in the industry — up to one person every second — without sacrificing security.

We’re here to help you select the right products for your security needs, customize them to suit your environment, ensure a smooth implementation, and keep everything working in an optimal fashion.

Fastlane Turnstile Comparison Chart

● Standard ● Available options x Not available

Features and options	Pedestal Footprint (in)			Lane Widths (in)			Barriers									
	Length	Width	Height	Standard	ADA/DDA	Extended Lane widths	Height Options (ft)				Barrier Motion	Locking Barrier	Throughput / minute	IP capability	UL 2593 listed	Fire tie in/ release on fire
							Standard	4.0'	5.0'	6.0'
